VARIO system. Each cylinder in the CHAMPIONS® "Vario" system comes with 3 key levels – A, B, C. Each type has a unique code and is packed in a separately sealed packet. In case A key is lost or stolen, B key is inserted into the cylinder and A key is automatically excluded. The same mechanism is used to enable C key and automatically disable B key.

CHAMPIONS® "Vario" is available in two versions :

"VARIO" SYSTEM 3/5+1+1

For normal use

3/5 main keys with red insert (A)

Used if a main key is lost or stolen: once inserted in the cylinder, it automatically excludes the previously used keys

1 first emergency key with yellow insert (B)

If the yellow key is lost or stolen, this key is used to change the code of the cylinder again and to automatically exclude all previous keys

1 second emergency key with white insert (C)

Used if a main key is lost or stolen: once inserted in the cylinder, it automatically excludes the previously used keys

"VARIO" SYSTEM 1+3/5+1

1 construction key with red insert (A)

For use during installation

3 main keys with yellow insert (B)

Upon completion of work, these keys are used to recode the cylinder and to automatically exclude the red key.

1 emergency key with white insert (C)

In case a main key is lost or stolen, this key is used to recode the cylinder again and to exclude all previously used keys

Master key systems are supplied with ONLY ONE owner's card.

SET & RESET service key option ON CHAMPIONS®PRO ONLY - An absolutely outstanding technical innovation: both master and service keys work on the same cylinder, but the service key can be temporarily disabled and then enabled again later. For example, when going on holiday, you may block access to those who hold service keys and restore it on your return.

GREEN SIDE
the SERVICE KEY operates normally. The cylinder is opened both by the BLUE MASTER KEY and by the TURQUOISE SERVICE KEY.

RED SIDE
the SERVICE KEY DOES NOT operate. The cylinder is only opened by the BLUE MASTER KEY.

1 key with green and red half-shell, used to activate / deactivate the service key.

3/5 blue master key allows the normal use of the cylinder (always).

1 turquoise service key

WARNING Add AR to the cylinder code (Es.CP4D313101/AR). Specify NUMBER and TYPE of requested keys in sequence as follows:
